

TEL Spain Workshop @ SPDECE 2012

TELSpain is the network of e-learning professionals in Spain. TELSpain organizes a workshop co-located with SPDECE 2012 (12-14 June) focusing on practical and applied aspects of learning technology and technology-enhanced learning. The event is aimed to foster interaction with the academic community around the SPDECE conference series. The event is offering an open forum for specialists and professionals in IT and education on advances in new technologies applied to learning, content and metadata standards, learning objects and learning designs and digital educational resources.

TELSpain members and other interested people are encouraged to participate in the Workshop presenting projects, products or research related to Technology enhanced learning or e-learning.

The procedure for presenting is as follows:

- Submit the presentation as PDF to: msicilia@uah.es before 15-March-2012
- The TELSpain Management Committee will send acceptance/rejection notifications by 15-May-2012
- Presentations will be approximately 15 minutes in a special session in SPDECE.

If requested by the authors, presentations will be published as papers in the proceedings of the SPDECE conference.
